What is ESOL and what do the different levels mean?

ESOL – English language learning for Speakers of Other Languages

- There are 5 different levels of ESOL from beginner to intermediate:
- **Pre- Entry:** for beginners.
- **Entry 1 (E1)/ Entry 2 (E2)/ and Entry 3 (E3):** These levels are for learners with little prior knowledge of English, the level is basic and learners are not yet independent with their language
- **Level 1:** This is an intermediate level, where learners are independent in their language skills.
- **Level 2:** Learners have good knowledge and are independent.

ESOL learners move up from level to level covering language skills in the areas of reading, writing, speaking and listening.

Key to Levels:

- The directory is organised by area and colour coded with the various levels. However, if you have received this directory in excel, then it will be possible to sort and search by level, area or provider.
